

# Table of Contents

## CHAPTER ONE: INTRODUCTION ..... 2

<b>A. What is this guide? .....</b>	<b>2</b>
1. Who might benefit from this guide?.....	2
2. Why are we concerned about LNG export facilities now? .....	2
<b>B. What is an LNG terminal? .....</b>	<b>5</b>
<b>C. How do I use this guide? .....</b>	<b>5</b>
<b>D. What is not covered in this guide in-depth? .....</b>	<b>6</b>
<b>E. What are other resources out there? .....</b>	<b>7</b>
1. What resources on LNG and LNG regulation already exist? .....	7
2. What are examples of challenges that have been brought against LNG facilities before? .....	8

## CHAPTER TWO: TECHNICAL BACKGROUND ..... 13

<b>A. What infrastructure supports LNG export and what are the main pieces of equipment found in an LNG export facility?.....</b>	<b>13</b>
1. Upstream: Production.....	13
2. Midstream (Transmission): Pipelines, Rail, Compressors.....	14
3. Midstream (Processing): Liquefaction in an export facility .....	14
4. Downstream uses of gas .....	16
<b>B. How many terminals are in play, and where are they located? .....</b>	<b>16</b>
1. What projects are in Louisiana? .....	17
2. What projects are in Texas? .....	19
3. What projects are elsewhere?.....	20
<b>C. What lessons can be drawn from the previous boom in import terminal permitting? .....</b>	<b>21</b>

## CHAPTER THREE: LEGAL OVERVIEW ..... 24

<b>A. What are the main laws governing LNG terminals? .....</b>	<b>24</b>
1. The Natural Gas Act (NGA).....	24
2. What is the NGA's effect on local and state laws that might apply? .....	25
3. The National Environmental Policy Act (NEPA) .....	26
4. Are the NGA, NEPA, CWA, CAA and CZMA the only relevant laws I might cite in comments? .....	27
5. Does the terminal's location also affect what laws apply and what permits, certificates, and approvals are required?.....	28
<b>B. Who grants and what are the main permits, certificates, and approvals required?.....</b>	<b>29</b>
1. Agencies and permits at the federal level.....	29

2. Agencies and permits at the state level .....	29
3. Local level.....	31
4. For a Louisiana terminal, which agencies are involved and what are their roles?.....	31
5. For a Texas terminal, which agencies are involved and what are their roles? .....	33
<b>C. What sort of experts might be helpful in challenging an LNG project?.....</b>	<b>36</b>

## **CHAPTER FOUR: FEDERAL FERC APPROVALS ..... 39**

<b>A. Background .....</b>	<b>39</b>
1. What is FERC's role in permitting LNG terminals? .....	39
2. Who is FERC and what are the relevant offices and people for LNG challenges?.....	40
3. What must an applicant receive from FERC to proceed with construction? .....	42
4. Why should I participate in the FERC process?.....	43
5. What are the primary ways an advocate can participate in the FERC process? .....	43
6. What are other resources on FERC's process for permitting LNG facilities? .....	44
7. How is this chapter organized?.....	45
<b>B. What laws must FERC comply with before issuing a certificate?.....</b>	<b>45</b>
1. What should I know about the Natural Gas Act and its related regulations?.....	47
2. What does the National Environmental Policy Act's environmental review require?.....	50
3. Who is CEQ and why does CEQ matter? .....	54
4. What human and natural resources are reviewed for impacts under NEPA? .....	56
5. What types of impacts to human and natural resources must be considered under NEPA?... 57	57
6. How does FERC decide if it will issue an EA first or go straight to an EIS? .....	61
7. Who drafts the environmental documents? .....	62
8. Which federal agencies consult with FERC during the environmental review process?.....	62
9. Are there reforms at FERC on the horizon relevant to LNG terminals? .....	65
<b>C. Step-by-step, how does FERC satisfy its NGA and NEPA requirements and review LNG terminal applications? .....</b>	<b>66</b>
1. Does FERC publish a flowchart of steps relevant to its certification process?.....	66
2. How does an LNG project begin? .....	68
3. How does an applicant begin the process of seeking FERC's approval for a project? .....	69
4. What must the applicant submit in preparation for the pre-filing process?.....	70
5. What happens once an applicant meets the pre-filing criteria? .....	71
6. What environmental information does the applicant need to provide during the pre-filing process?.....	73
7. What happens during open house(s) hosted by the applicant?.....	75
8. What is the Notice of Intent to prepare NEPA documents?.....	75
9. What happens during the “scoping comments” period, <i>i.e.</i> , the first major comment deadline for a project?.....	76
10. What must the application contain for FERC to accept it and start the application process? .....	76
11. What happens during the application process?.....	77
12. Do cooperating agencies review a preliminary version of the draft EIS before it is released for public comment? .....	78

13. Will there be an opportunity to comment on the draft EIS once it is published? .....	78
14. What does an EIS look like? .....	78
15. What should I expect at draft EIS public meetings? .....	80
16. What is involved in the drafting of a final EIS and its publication? .....	80
17. Might FERC decide that a supplemental environmental document (an EA or EIS) is needed? .....	81
18. When will FERC decide on the application and what will that Order look like?.....	82
19. What steps should an advocate take if FERC certifies a project?.....	82
20. Where do I litigate after FERC issues its order on rehearing?.....	83
21. What issues should I raise on appeal and what is the court's role?.....	83
22. Will any of the administrative process be in Spanish (or other non-English language)? .....	85
<b>D. What are the opportunities for public engagement during the certification process, and how should I participate? .....</b>	<b>85</b>
1. Does FERC have an online portal for the projects it is reviewing? .....	86
2. How do I find the FERC docket for a specific LNG facility? .....	86
3. Why can't I access all of the documents on the docket? .....	86
4. How do I receive automatic notifications of filings for the project?.....	87
5. How do I learn about open houses and stakeholder meetings during pre-filing? .....	87
6. When and why should I intervene in FERC proceedings? .....	88
7. How do I intervene in the proceedings?.....	90
8. When and why should I file comments? .....	92
9. How do I file comments? .....	93
10. How do I file a request for rehearing?.....	94
<b>E. What major issues should I look for and raise in comments? .....</b>	<b>94</b>
1. Project purpose.....	97
2. Reasonable alternatives (18 C.F.R. 380.12(l), Resource Report 10)).....	98
3. Mitigation measures .....	99
4. Public interest (NGA argument).....	101
5. Geological resources (18 C.F.R. 380.12(h), Resource Report 6); .....	101
6. Soils and sediments (18 C.F.R. 380.12(i), Resource Report 7);.....	102
7. Water resources and wetlands (18 C.F.R. 380.12(d), Resource Report 2) .....	103
8. Vegetation (18 C.F.R. 380.12(e), Resource Report 3).....	104
9. Wildlife and aquatic resources (18 C.F.R. 380.12(e), Resource Report 3).....	104
10. Threatened, endangered and other special status species .....	106
11. Land use (18 C.F.R. 380.12(j), Resource Report 8)) .....	108
12. Recreation and visual resources (18 C.F.R. 380.12(j), Resource Report 8)) .....	109
13. Socioeconomics (18 C.F.R. 380.12(g), Resource Report 5).....	111
14. Environmental justice .....	111
15. Transportation.....	114
16. Cultural resources (18 C.F.R. 380.12(f), Resource Report 4).....	116
17. Air quality and noise (18 C.F.R. 380.12(k), Resource Report 9)) .....	118
18. Climate Change.....	121
19. Reliability and safety (18 C.F.R. 380.12(m), Resource Report 11)).....	122
20. New or Changed Circumstances.....	124

---

**F. Where can I find examples of comments filed with FERC against LNG terminals? ..... 124****CHAPTER FIVE: FEDERAL DOE AUTHORIZATION ..... 128****A. Background ..... 128**

1. What is DOE's role in authorizing the export of LNG? ..... 128
2. Who is DOE and what are the relevant offices involved in authorizing LNG exports? ..... 129
3. What must an applicant receive from DOE before proceeding with construction? ..... 130
4. Why should I participate in the DOE process? ..... 131
5. What are the primary ways an advocate can be involved in the DOE process? ..... 132
6. What are other resources on DOE's process permitting LNG facilities? ..... 133
7. How is this chapter organized? ..... 133

**B. What laws must DOE comply with? ..... 134**

1. What does the Natural Gas Act require of DOE when reviewing import and export applications? ..... 134
2. What does the public interest review required for non-FTA applications include? ..... 135
3. What are DOE's NEPA responsibilities? ..... 136
4. Other than the NGA and NEPA, what other orders or regulations are relevant for DOE's review of LNG applications? ..... 137
5. What length of authorization might an export facility seek? ..... 138

**C. Step-by-step, how does DOE satisfy its responsibilities and how do I participate? ..... 139**

1. How does an applicant apply for authorization to export gas? ..... 139
2. What must the application include? ..... 139
3. Where can I find the docket information for an applicant's DOE filings? ..... 140
4. How do I sign up for notifications of filings? ..... 141
5. When and how do I comment on an open docket? ..... 141
6. What is the difference between a comment and a protest? ..... 142
7. How do I file a motion to intervene? ..... 143
8. What are my rights and responsibilities as an intervenor? ..... 144
9. How does intervention make the process more transparent? ..... 144
10. What's the deadline to request that DOE conduct a conference, oral presentation, or trial-type proceeding as part of its review process, and what should that request include? ..... 144
11. How likely is it that DOE grants additional procedures, and if it does, what should I expect? ..... 145
12. How do I file an application for rehearing DOE's order? ..... 146
13. How do I litigate a certification after rehearing is concluded? ..... 148

**D. What are some issues I can raise and what are example motions, comments from previous challenges? ..... 148**

1. Foundational Studies. ..... 148
2. Upstream and downstream greenhouse gas emissions. ..... 149
3. Categorical Exclusions. ..... 149
4. Example Filings ..... 150

# CHAPTER SIX: THE ARMY CORPS OF ENGINEERS' PERMITS AND DECISIONS ..... 153

## **A. Overview of the Corps' role in LNG permitting ..... 153**

1. Should I get involved in a Corps permit challenge? .....	153
2. What are the Corps decisions and permits that are relevant to LNG terminals? .....	153
3. What are ways an advocate can get involved in challenges to 404 and section 10 permits? .....	156
4. Who in the Corps will I be dealing with? .....	157
5. What are some of the reasons to challenge a Corps decision or permit? .....	158
6. How is this chapter organized? .....	161

## **B. What laws govern the Corps' decisions on a 404 permit? ..... 161**

1. What activities and aquatic resources will trigger the need for a 404 permit? .....	162
2. How does the Corps determine which aquatic resources are jurisdictional and important? .....	163
3. What are the 404(b)(1) Guidelines? .....	165
4. How are the 404(b)(1) guidelines structured? .....	169
5. What is involved in the Corps' public interest review, and how does it make a 404 challenge a particularly useful challenge? .....	170
6. Does the Corps also have to comply with NEPA? .....	172
7. What other laws must be followed or permits that are needed before a 404 permit issues? .....	172
8. What are some ways that I can use the Guidelines and public interest review as a basis for a Section 404 permit challenge? .....	173
9. What are some specific things I could point out as violations of the Guidelines? .....	174
10. This all seems complicated; when should I retain an expert, and what should that expert know about? .....	186

## **C. How do I actually participate in the Corps' 404 review? ..... 187**

1. Has the government published a flowchart showing the Corps' process of issuing a 404 permit? .....	187
2. How do I know if the Corps' jurisdictional determination process and permitting process has started? .....	191
3. What should I know about the threshold jurisdictional determination, and is there a role for an advocate there? .....	192
4. For the actual permitting process, what will the applicant and Corps have done before public notice must be issued? .....	197
5. How long after the application is submitted will the public receive notice of the application? .....	198
6. How do I find the public notice? .....	199
7. Is it possible that no public notice will be given because none is required? .....	199
8. What will the public notice say and how do I submit comments? .....	201
9. Will there be a public hearing? .....	202
10. What happens at a public hearing if it is granted? .....	203
11. What information should be publicly available that I can use on in pulling together comments? .....	204
12. Where do I find guidance on how to FOIA the Corps? .....	206
13. Where can I find examples of comments filed against LNG terminals? .....	209

14. Where can I find an example of 404 comments filed in a pipeline challenge?.....	209
<b>D. What role do other agencies play in the Corps permitting process? .....</b>	<b>209</b>
1. How can EPA's discretionary 404(q) role be leveraged in a 404, 103 or 10 challenge?.....	209
2. What if EPA comments but doesn't follow the full 404(q) process?.....	212
3. What is the 404(c) EPA veto, and is it useful for LNG terminals?.....	213
4. What other agencies consult on Corps permits, and what leverage can they exert? .....	215
5. Does 404 also require a separate 401 certification? .....	216
<b>E. What happens after the Corps makes a permitting decision?.....</b>	<b>216</b>
1. If a 404 permit issues, do I need to administratively appeal before going to federal court? ..	216
2. Is it likely that an applicant will appeal the Corps' decision? .....	217
3. What roles do advocates play in the administrative appeals process?.....	217
4. What is the process for an applicant that chooses to appeal a proffered permit? .....	219
5. What are best practices for litigating 404 permits? .....	221
6. Where can I find examples of legal briefing on 404 permits issued to LNG terminals? .....	222
<b>F. What should I know about the Section 10 Rivers and Harbors Permit for activities in navigable waters? .....</b>	<b>222</b>
1. I'm new to Section 10 permits, what are these permits and the Rivers & Harbors Act in general about?.....	222
2. What Section 10 regulations guide the Corps' decision-making process?.....	223
3. I want to file a Section 10 challenge, where can I find example comments?.....	224
<b>CHAPTER SEVEN: CLEAN WATER ACT SECTION 401 STATE WATER QUALITY CERTIFICATIONS .....</b>	<b>226</b>
<b>A. Overview.....</b>	<b>226</b>
1. What is a Section 401 Water Quality Certification? .....	226
2. What is in flux about the 401 WQC rules and why does it matter?.....	227
3. Why challenge a 401 WQC?.....	228
4. Who issues 401 WQCs?.....	228
5. What are avenues for advocate involvement? .....	229
6. How is this chapter organized? .....	230
<b>B. What are the applicant and the state's responsibilities to comply with federal law on Section 401 WQCs? .....</b>	<b>231</b>
1. What are the water quality standards that a state certifies (or waives) compliance with?.....	231
2. How might water quality be affected by the project? .....	232
3. What federal regulations are in place interpreting Section 401 and its requirements? .....	233
4. What federal rules have been in place previously?.....	234
5. What should I know about the now-defunct 2020 rules?.....	234
6. What might the 2023 rules look like?.....	235
7. What happens if the state fails to act within a one-year period or otherwise waives its rights? .....	236

<b>C. What are state-specific rules on WQCs for LNG projects in Texas and Louisiana? .....</b>	<b>237</b>
1. What is Louisiana's DEQ's process for certification? .....	237
2. What is Texas's RRC's process for certifications? .....	239
<b>D. What are possible issues to raise in a 401 WQC challenge? .....</b>	<b>241</b>
1. Has the applicant requested all 401 WQCs necessary? .....	242
2. Is the agency interpreting its 401 responsibilities correctly? .....	242
3. Does the application contain the mandatory minimum information?.....	242
4. Is there a “reasonable assurance” that the project will comply with the state’s antidegradation implementation policy? .....	242
5. Is there a “reasonable assurance” that the narrative and numeric criteria will not be violated? .....	243
6. Are there other conditions that should be in place? .....	243
7. Is there a potential that the federal agency granting the permit or license will act before the certification is completed?.....	243
8. Where can I find examples of 401 WQC comments filed against an LNG terminal? .....	243

## **CHAPTER EIGHT: CLEAN AIR ACT PERMITTING .....** **246**

<b>A. Overview.....</b>	<b>246</b>
1. What is the Clean Air Act and what approvals are required?.....	246
2. Who Implements the Clean Air Act? States vs. EPA .....	248
3. Why challenge an LNG export plant’s Clean Air Act permits?.....	248
4. How is this chapter organized? .....	249
<b>B. Major New Source Review Construction Permits .....</b>	<b>249</b>
1. Who needs a major NSR permit?.....	249
2. How do I know when a major NSR permit application has been submitted for a proposed LNG export plant?.....	251
3. Will I have an opportunity to comment on a proposed plant’s major NSR permit application? .....	252
4. When is a Permit Application Complete?.....	253
5. How much time does a permitting authority have to act on a major NSR permit application? .....	255
6. How do I know when a draft major NSR permit is available for public comment?.....	255
7. How much time will I have to comment on a draft major NSR permit? Can I get an extension? .....	257
8. Is there an opportunity for a public hearing on a draft major NSR permit?.....	258
9. What are the key issues I should cover in my comments on a draft major NSR permit?.....	260
10. Modifications.....	274
11. What are my legal options if the permitting authority rejects my comments on a draft major NSR permit?.....	275
12. What authority does EPA have to prevent a state with a SIP-approved major NSR permit program from issuing a legally deficient major NSR permit?.....	277
13. Challenging Major NSR Permits in “Delegated” States .....	280

<b>C. Minor NSR permits .....</b>	<b>280</b>
1. How will I know when a proposed facility has applied for a minor NSR permit?.....	280
2. Will I be able to comment on a draft minor NSR permit?.....	280
3. What issues should I look for in minor and synthetic minor NSR permits?.....	281
4. How can I challenge a deficient minor NSR permit if my comments are ignored?.....	283
<b>D. Offshore Air Permitting .....</b>	<b>283</b>
<b>E. Hazardous Air Pollutants and Air Toxics .....</b>	<b>284</b>
1. National Emission Standards for Hazardous Air Pollutants.....	284
2. State Air Toxics Requirements .....	287
<b>F. New Source Performance Standards .....</b>	<b>288</b>
<b>G. Title V Operating Permits .....</b>	<b>288</b>
1. Who needs a Title V permit? .....	289
2. Does a new facility subject to Title V have to obtain a Title V permit prior to construction? 289	289
3. What opportunity is there to comment on a draft permit? Is the permitting authority required to hold a public hearing? .....	290
4. State and EPA review procedures for Title V Permits; recent rulemaking.....	290
5. What issues should I cover in my comments on the draft permit? .....	291
<b>H. Effective comment drafting .....</b>	<b>294</b>
<b>I. Pollutants and Technology at LNG Export Facilities.....</b>	<b>296</b>
1. Pollutants emitted by LNG facilities.....	296
2. Emission factors.....	296
3. Fugitive emissions .....	298
4. Control technologies at LNG plants.....	298
<b>J. Sources of data and information broadly .....</b>	<b>300</b>
1. Online State Agency Databases.....	300
2. How to find public comments, petitions, and other advocacy material.....	300
3. Legal guides and resources .....	301
4. Technical Guides and Resources .....	301

## **CHAPTER NINE: TAX ABATEMENTS .....** **304**

<b>A. Overview.....</b>	<b>304</b>
1. What are tax abatements?.....	304
2. Why do facilities apply for tax abatements and incentives?.....	304
3. What is unique about challenging tax abatements and incentives?.....	305
4. What are avenues of advocate involvement? .....	306
5. How is this chapter organized? .....	307
<b>B. Louisiana tax exemptions .....</b>	<b>307</b>
1. What is the main tax exemption LNG developers seek in Louisiana? .....	307
2. Where should advocates focus in challenging individual exemptions? .....	308

3. When are localities officially involved in the ITEP process? .....	308
4. What is the timing for advocacy on an individual project and how do I find out about pending applications? .....	309
5. Is there other useful data on FastLane? .....	310
6. Won't companies leave if they don't get the tax exemptions, causing localities to lose tax revenue? .....	310
7. Are there success stories of advocates blocking an ITEP exemption? .....	311
8. What are advocacy avenues available other than fighting the revenue lost in individual projects? .....	312
9. If the recent changes are executive action, what happens when the governor's term is up? .....	312
<b>C. Texas tax exemptions .....</b>	<b>312</b>
1. What is the main tax exemption LNG developers seek in Texas? .....	312
2. What is involved in getting a Chapter 313 tax exemption? .....	314
3. What is the timing for advocate involvement on an individual project? .....	317
4. How have advocates successfully blocked Chapter 313 exemptions? .....	318
5. Where can I find the application materials and agreements for an individual project? .....	319
6. What might happen with Chapter 313, given that it has not yet been reauthorized? .....	319
7. Where can I find more information? .....	320
<b>D. What are other tax exemptions and financial incentives that a facility might have access to? .....</b>	<b>320</b>
<b>CHAPTER TEN: OTHER TOPICS .....</b>	<b>323</b>
<b>A. Coastal Use Permits.....</b>	<b>323</b>
1. Louisiana coastal use permits .....	325
<b>B. Local Land Use Issues: Easements and Eminent Domain .....</b>	<b>331</b>
<b>C. Concerns about preemption .....</b>	<b>331</b>
1. Preemption where a regulation is an obstacle.....	332
2. Preemption where related infrastructure is part of LNG facility construction or operation. ....	333
3. Potential avoidance of preemption based on indirect effect and different purpose.....	333
4. Relevance of state or local law to NEPA or CZMA review even when preempted. ....	334
<b>D. What about port authorities? .....</b>	<b>334</b>
<b>E. What permitting requirements apply to deepwater terminals? .....</b>	<b>335</b>
1. The U.S. Maritime Administration (MARAD), the Coast Guard, and other agencies .....	335
2. EPA's responsibilities.....	337
3. The involvement of adjacent coastal states' governors .....	338
4. The involvement of the nearest adjacent coastal state governor.....	338
5. FERC's authority over pipelines for deepwater ports .....	339
<b>GLOSSARY .....</b>	<b>340</b>
